

Sustaining **Hope** for the Underprivileged

Persevering in Service Development

After several years of the pandemic, our services and activities are gradually resuming. Among these include the Good Trekker - volunteers were sent out to Kenya this year to visit the local impoverished communities. Inspired by the beautiful nature, they worked diligently to support charitable causes. Meanwhile, we have launched new services in Hong Kong and mainland China, establishing our first elderly day care centre and the first social enterprise, benefiting more people. Additionally, we are pleased to report that the membership of the Precious Link Centre in Shek Kip Mei has reached 800. Over the past year, the centre has collaborated with various professionals to develop a wide range of innovative activities that attract both the elderly and students. These activities aim at helping them build physical, mental, and spiritual health while promoting the culture of mutual care through intergenerational support.

The **Hope** You Are Bringing. The **Lives** You Are Changing.

Healthy Aging at Home

Walk Well, Swallow Well, Defecate Well

Having served the community for many years, HOPE worldwide has been consistently promoting healthy aging at home in hopes that seniors could enjoy their later years at home rather than within the confines of a nursing home. To achieve this, we advocate a self-reliance care model, enabling the seniors to live independently while reducing the burden on caregivers.

Walking Well Begins with Physical and Cognitive Training

The Precious Link Centre in Shek Kip Mei currently has over 800 members, with senior members gradually re-engaging in activities after the pandemic. Over the past year, the Centre had organised a variety of programs, including muscle-strengthening exercise classes, stroke risk assessment activity, urinary health seminars for the seniors, and wellness mugwort balls DIY workshops. At the same time, engaging and stimulating games were organised to train cognitive abilities and hand-eye coordination, with activities such as tabletop curling and board games being particularly popular among the seniors. The Centre also invited nutritionists to conduct cooking workshop and organised mindfulness art workshop, as well as volunteer haircut services for them.

88-year-old Uncle Tong is a cancer survivor who often brings his harmonica to the Centre to participate in activities, entertaining everyone with music and adding to the joyful atmosphere.

This elder and her daughter share a close bond; the mother is already 93 years old. They both enjoy playing board games together at the Centre.

Senior Volunteers

Some of our senior members have become volunteers, transcending age limits to serve as board game ambassadors, teaching other seniors to play. They also assist with meal distribution at the Centre and regularly make phone calls to check on the well-being and needs of those seniors who are living alone. When the Centre recruits volunteers for visiting the elderly homes, they eagerly sign up to help.

First Elderly Sports and Day Care Centre Now in Operation

Despite the disruptions caused by several years of the pandemic, we are delighted to continue expanding our services. Sponsored by the Suen Chow Yuet Kam Charitable Fund, the first Elderly Sports and Day Care Centre in Prince Edward was approved by the Social Welfare Department to commence operations in November 2023, providing daytime services for seniors in the community.

In addition to offering care services for the elderly, various innovative experience classes are also organized at the centre, including stick exercise and fencing workshops, which not only enhance seniors' physical fitness but also allow them to try activities that are typically less accessible.

The Centre also provides home services, including meal delivery, medical escort, rehabilitation therapy, nursing services, personal care, home cleaning, and speech therapy. Seniors can apply for these care services using the Community Care Service Voucher for the Elderly. The centre serves senior residents in the Yau Tsim Mong, Sham Shui Po, and Kwai Tsing districts.

Senior Fencing Experience Classes

Hong Kong's success in winning two gold medals at the Olympics has not only excited the entire city but also increased public interest in the sport of fencing. Last year, HOPE worldwide began offering fencing experience classes, where professional coaches teach seniors the joys of fencing. The seniors also had the opportunity to participate in small competitions to spar with other senior fencers.

To promote sports among the seniors, we planned to hold the Hong Kong Intergenerational Fencing Invitation in August 2024. This event brought the children, teenagers, and seniors to compete on the same stage, fostering mutual understanding and respect between the young and the elderly. The competition featured multiple age categories, from U8 to 70+, and featured the largest intergenerational mixed-age competition in Hong Kong.

Balloon Twisting for All Ages

For both the elderly and children, learning balloon art can improve concentration. It also serves as a great training for the hands, enhancing the flexibility of small muscles, fingers, and hand-eye coordination. Balloons are versatile so with a little creativity, they can be used to create various imaginative designs.

Various Activities at the Precious Link Centre

DIY Decoupage Workshop

The handmade classes have proven to be quite popular among seniors. We arranged for a decoupage instructor to teach seniors to create their own tote bags. Throughout the process, the seniors were encouraged to express their creativity freely. After the classes, everyone happily took home their unique designs.

'See Through' (Master) Program

Last year, we collaborated with the Hong Kong Lutheran Social Service to implement the 'See Through' (Master) Program at our Centre, conducting multiple workshops that included nutrition cooking classes, fitness sessions, mindfulness art workshops, and stroke risk assessment activities. These activities aimed to raise seniors' awareness of their physical and mental health, encourage them to exercise more, and prevent illnesses caused by the decline in bodily functions.

Senior Urological Health Awareness

The Senior Urological Health Awareness session, led by a urologist, received enthusiastic responses, with 40 seniors from the Precious Link Centre participating. On that day, a physiotherapist also taught seniors fall prevention exercises.

Volunteers for Elderly Day 2024

Volunteers for Elderly Day 2024 was held on January 28, 2024, where over 2,000 volunteers were divided into hundreds of teams to spread love and care for nearly 1,000 seniors aged 65 and above across Hong Kong, including those receiving social welfare, living alone, or living with spouse.

Coinciding with HOPE worldwide's 30th anniversary in Hong Kong, the event's theme was 'Supporting the Elderly for 30 Years, Witnessing Miracles Everywhere'. Over the past three decades, HOPE worldwide has mobilized more than 60,000 volunteers to visit over 20,000 seniors living alone or with spouse before the Lunar New Year. Among these volunteers, 402 had continuously participated in the Elderly Day every year consecutively.

After the opening ceremony, volunteers set off in batches to visit seniors living in public housing estates across the city, delivering gift bags. We also arranged 145 volunteers to visit frail seniors in nursing homes, and hundreds more participated in the 'Fulfill a Wish' Program, helping seniors fulfill small wishes that are often difficult to achieve.

Children: Winning at the Midpoint

HOPE worldwide Centre for Kids

Since its establishment, the HOPE worldwide Centre for Kids has served 32,191 children from low-income families, providing after-school learning assistance and character-building guidance, with the aim of breaking the cycle of poverty for these families.

Beneficiaries to Date:

	Low-income families	10,997
	Children from low-income families	32,191
	Students with special educational needs (SEN)	396

Supporting Children in Need

To help primary school students with learning difficulties, HOPE worldwide collaborates with various primary schools in Kowloon to provide small-group tutoring on campus. Through group activities, we offer core subjects tutoring such as Chinese, English, and Mathematics for SEN students. Through engaging activities in the curriculum, we aim to enhance students' academic knowledge and foster intention for learning, establishing a solid foundation.

In addition to academic needs, we believe that good character should be cultivated from a young age. Therefore, we also emphasise character development among the students. Over the years, HOPE worldwide has instilled the Six Pillars of Character — Respect, Responsibility, Integrity, Fairness, Caring, and Citizenship — into the students.

We believe families play a crucial role in children's growth. At the beginning of the school year, we held parent seminars to help parents understand how to support their children in returning to the classroom and making academic progress.

Project Futuremark

The Project Futuremark initiative entered its second and third phases in the past year. Sponsored by The Hongkong Land, the Hong Kong Council of Social Service had invited various service organisations to collaborate. HOPE worldwide focused on providing basic dental check-ups, home organisation, and exercise classes for children with special educational needs (SEN) from low-income families living in subdivided flats in the Yau Tsim Mong and Sham Shui Po districts to improve their quality of life.

Japanese Manga Class

To engage young people and unleash their talents, we invited instructors to teach teenagers the basics of Japanese manga, including sketching, proportions, facial features, and line drawing techniques, helping them discover the joy of drawing through the process.

Activities for Low-Income Families

To encourage low-income families, our organisation organized a Disney family trip, inviting 17 families to enjoy a day at Disney. Parents had some feedback after their trip: "Thank you! My child has never been to Disneyland before, and she had a great time. We are so grateful for your help; a ticket costs hundreds of dollars, which is too expensive! It could buy many meals. Thank you for allowing us to accompany our child and give her an unforgettable and joyful experience."

Dental Healthcare Social Enterprise

'Eating Well' Relies on Healthy Teeth

Many elders neglect their dental health due to lack of awareness about dental pain. To address this, our organisation has been promoting the '80+20 Community Elderly Oral Health Program' for several years, aiming at helping low-income seniors maintain healthy teeth. We hope to enable them to consume nutritious foods, leading to better overall health and an improved quality of life.

Research in Japan has long recognised that dental and gum health might affect brain degeneration, so seniors should have regular dental check-ups. The goal of the '80+20 Community Elderly Oral Health Program' is to help seniors retain at least 20 healthy teeth by the age of 80. Sponsored by the Suen Chow Yuet Kam Charitable Fund, this program served 1,400 seniors last year. In addition to providing free dental check-ups for low-income seniors, those in need were referred for dental cleaning services.

The Smile Project

The Smile Project, funded by the Jing Yuan Charity, the Fu Tak lam Foundation Limited, Kerry Properties Limited, and the Vera Ruttonjee Desai Foundation, is a two-year charitable dental initiative. Currently driven by the Jing Yuan Charity and organised by Caritas Hong Kong, the project primarily provides a one-time fully subsidized dental care plan for low-income individuals aged 55 and above. This includes oral examinations, oral hygiene guidance, X-ray examinations, dental restorations (fillings), and non-surgical tooth extractions. It is estimated that approximately 2,500 individuals will benefit from this two-year program, with eligible participants able to receive dental care at a charitable rate.

Head and Neck Cancer Patients and Survivors

Head and neck cancer patients require special dental care. HOPE worldwide previously arranged for a team of speech therapists, occupational therapists, nutritionists, and student volunteers to conduct health assessments for cancer survivors. This initiative helped them understand their oral health, muscle strength, and nutritional status, while also teaching them home exercise to maintain good health.

HOPE worldwide in China

Establishing the First HOPE worldwide Social Enterprise

HOPE worldwide has been assisting families and children in impoverished areas of Sichuan Province. To expand our efforts, our first noodle shop was opened in Chengdu at the beginning of 2024, operating as a social enterprise and employing local deaf-mute individuals to increase their employment opportunities. We are pleased to report that within just a few months, the noodle shop has been recognised as a 'Good Social Enterprise in China'.

We plan to continue expanding the noodle shop by adding a café section, allowing the public to leisurely enjoy 'Silent Coffee'.

Good Trekker

Volunteer Service: A Unique Experience in Nature

"I am so happy to participate in this volunteer journey; this trip to Kenya is truly unforgettable". The slogan for this trip was "Travel with Charity", signifying the group's conviction and making this journey deeply memorable.

This year, our volunteer team visited the Mukuru slum in Nairobi, Kenya. HOPE worldwide has established a service point there to provide a safe space for disadvantaged women to receive training in computer skills, hairdressing, and beauty, improving their livelihoods. Two volunteers, Michael and Gabriel, recalled the smiles of every child they met in Kenya and the warm welcome they received. Some of the children were even the same age as them, and despite facing difficulties in life, still joyfully performed dances for the visitors.

The volunteers' first stop was Mukuru, where they interacted with about 60 local beneficiaries. They prepared simple group games for the children, such as making paper airplanes and teaching them to play frisbee. The local children, in turn, taught the volunteers local traditional games and performed dances, breaking language barriers. Some volunteers spoke with the local women to learn about their lives. Before departure, the volunteers prepared 80 gift bags filled with daily necessities, stationery, toys, and snacks to distribute to the local children.

The trip concluded with an exciting wildlife safari, including the much-anticipated Great Migration, during which everyone marveled at the beauty of nature. What was even more touching was the team members preserved food to share with children they encountered along the way.

The funds raised by the participants in this volunteer trip would support our services in Kenya and also benefit our educational programs for children living in subdivided flats in Sham Shui Po, providing much-needed support and assistance.

: Volunteer Initiative

Giving a 'C' to Those Around Us Every Day

Starting in 2023, HOPE worldwide aims to turn the concept of "volunteering" into a spontaneous lifestyle habit. The goal is to encourage everyone, regardless of time or place, to be mindful of the needs of those around them, to lend a helping hand, and to care for and assist others. We also hope to help volunteers understand the needs of people from all walks of life, creating a positive impact and building a harmonious society together.

Creating Impact Through Giving and Caring

Over the past year, HOPE worldwide had partnered with a group of enthusiastic volunteers to organise visit services. Each month, we visited a nursing home to accompany and comfort the elderly residents, engaging them in conversation and taking them outdoors to enjoy the sunshine and fresh air. During this period, we received assistance from 75 volunteers, benefiting 180 elders.

Future Development

SEN Students and Parents

In the future, we plan to hold multiple seminars for parents and interest classes focused on mental and physical well-being, addressing their needs. We will also invite professionals and peers to share their experiences and insights, alleviating parental stress.

At the same time, we aim to support the growth of some high school SEN students, assisting their future development. Career planning workshops will be arranged to help students recognise their talents and set goals early.

Continuation of the 'Opportunities for the Elderly Project'

Since 2022, HOPE worldwide has participated in the Social Welfare Department's 'Opportunities for the Elderly Project', continuing to embody the attitude of 'living fully and vibrantly at any age'. Through intergenerational collaboration, we aim to pass on the spirit of mutual care and support, creating a harmonious society. We have planned to invite 25 elderly volunteers, alongside nearly 30 secondary students, to visit a nursing home where they will engage with 100 residents in paper-cutting and dough figurines DIY activities, thereby passing on Chinese culture to the next generation.

Nordic Walking

Nordic walking is highly popular abroad, enhancing over 80% of upper body muscle strength and significantly reducing muscle loss. Sustained practices of Nordic walking not only help with weight loss and revitalises the spirit, but studies have also shown that this exercise can reduce the risk of scoliosis and falling. For seniors, participating in this activity with peers of similar age can strengthen social connections and promote physical and mental health. Therefore, we are currently exploring the details to launch a program benefiting the elderly.

Volunteers for Elderly Day 2025

Volunteers for Elderly Day is scheduled to be held on January 12, 2025. We plan to send out over 2,000 volunteers to visit single elders or elderly couples living in public housing estates or older buildings across Hong Kong on that day.

HOPE worldwide has always adhered to the biblical principle of being a "good steward", striving to allocate as much of the donations to serving beneficiaries as possible. Therefore, our administrative expenses are maintained at less than 10% of the total expenditures. In 2023, 84.2% of the total expenditure was allocated to support various service programs and activities.
